Lucy with ROSE

Who is Rose?

Rose is one of the success stories of Lucy and Ndi Moyo. She is an orphan, her parents died as a result of HIV/AIDS. She also has the virus and once a month goes to Lilongwe with her grandmother for her ARV (Anti Retrovirals) The treatment is given by The Lighthouse. They have to stay in Lilongwe overnight and Ndi Moyo pay for the transport and Rose gets 200 kwacha (under £1) for her favourite treat – chips!

Rose is being brought up by her maternal grandparents and her uncle is also in this picture.

Without such caring grandparents and without Ndi Moyo, Rose would not be with us today.
